

The image features a gas station with four colorful fuel nozzles (yellow, green, red, blue) hanging from a black hose. The background shows a wet pavement reflecting the sky and buildings. The logo for EmilTec CHROMOLINE is overlaid in the center. The logo consists of a white square with a black and white geometric design on the left, followed by the text "EmilTec" in a bold, white, sans-serif font, and "CHROMOLINE" in a smaller, white, sans-serif font below it. The letters in "CHROMOLINE" are spaced out, with a red dot above the 'O', a green dot above the 'M', and a yellow dot above the 'O'.

**EmilTec**  
CHROMOLINE

## CHROMOLINE

Discover the new range of accessories for high-pressure washing and suction, designed to combine practicality and aesthetics in every professional cleaning environment.

Available in a wide variety of colors, these accessories are ideal for easily distinguishing different users and washing programs, enabling efficient and well-organized operations.

Additionally, this range allows you to match accessory colors with your company's visual identity, adding a touch of style and consistency that aligns perfectly with your brand image.

# ET10

## HIGH-PRESSURE WASH GUN

The ET10 high-pressure wash gun, with a **maximum pressure of 280 bar** and a flow rate of up to 30 l/min, is **ergonomically** designed to reduce strain and protect the operator's hand.

**Compact and lightweight**, it is ideal for washing systems intended for non-professional users as well, such as self-service car wash stations.

Max pressure (bar): **280**  
 Max flow rate (l/min): **30**  
 Body: **BRASS**  
 Inlet tube: **STAINLESS STEEL**

# L10

## HIGH PRESSURE WASH LANCE

The L10 lance can operate at **pressures of up to 310 bar and flow rates of up to 40 l/min.**

Its plastic handle is molded onto the tube, ensuring **exceptional durability** even in the event of ground impact.

The L10 performance makes it ideal for use with professional pressure washers.

Max pressure (bar): **310**  
 Max flow rate (l/min): **40**  
 Tube material: **STAINLESS STEEL**

# CAR-WASH PISTA

## ULTRALIGHT THERMOPLASTIC HOSE FOR CAR-WASH BAYS

**Ultra-lightweight hose for car wash booms,** complete with knobs and fittings.

The smooth surface of the hose does not damage the vehicle body in case of impact or abrasion. Made of high-quality polyurethane and thermoplastic elastomer, it offers excellent flexibility and a **reduced weight of only 10 g/m.**

**High resistance** to oils, UV rays, ozone, and weather conditions.

**Working pressure up to 250 bar.**

**Inner layer:** high-strength polyurethane.

**Reinforcement:** high-strength polyester braid.

**Cover:** transparent polyurethane and thermoplastic elastomer.

Max pressure (bar): **250**

Hose material: **THERMOPLASTIC**

Fittings: **G 3/8" FF**

Inner diameter (Inch/mm): **1/4 - 6**

Outer diameter (mm): **13**

Surface: **POLISHED**

## SUPER SPIRAL

### SPIRAL HOSE MADE OF RILSAN

The **Rilsan spiral hose**, ideal for **car wash** applications, is a flexible hose made of **Rilsan® (polyamide 11)**, a high-performance plastic material known for its **resistance to wear, chemicals, and pressure**. It is commonly used in **car wash systems** for connecting guns and lances for spraying.

- **Material Rilsan PA11:** offers high resistance to abrasion, oils, and chemical detergents.
- **Spiral structure:** provides high elasticity and returns to its original shape, reducing bulk.
- **Flexibility and lightness:** makes it easy to use in washing operations.
- **Available colors:** provided in vibrant colors to differentiate washing stations and improve safety.

Hose diameter (mm): **8x5**  
 Max pressure (bar): **20**  
 Hose material: **RILSAN**  
 Fittings material: **STAINLESS STEEL**

## COLOURED FLAT LANCE

### FLAT LANCE FOR INDUSTRIAL VACUUM CLEANERS

Universal flat lance for industrial vacuum cleaners. Made in Italy.

Material: **TECHNOPOLYMER**

Colours: ● ● ● ●

## EVAFLEX

### VACUUM CLEANER HOSE

EVAFLEX style hose for vacuum cleaners.  
Diameter: 38 mm.

Designed for optimal durability and high performance, this product guarantees a **long lifetime** with no internal stress, making it a reliable choice for demanding applications. Its chemical resistance ensures excellent performance even in harsh environments, while the wear and abrasion-resistant construction maintains its integrity over time.

- **Enhanced Durability:** Engineered without internal stress, it withstands extensive use for a long lifespan.
- **Chemical-Resistant:** Withstands exposure to various chemicals, ensuring reliable operation.
- **Wear and Abrasion-Resistant:** Maintains quality despite challenging conditions, reducing the need for replacements.
- **Effortless Handling:** Lightweight yet strong, it is easy to maneuver, making powerful vacuum handling simpler.
- **Superior Flexibility:** Features a smooth and flexible interior, small bending radius, and crush resistance for easy use in confined spaces.

Perfect for applications where flexibility, strength, and chemical resistance are essential, this product is built to perform.

#### **EMILTEC, EMILian TEChnology.**

These two words that build our brand, contain the total meaning of our job: promotion and international marketing of the best technological performances from our region, Emilia. Emiltec is deeply rooted in the industrial area in the Emilia region. Thanks to the high quality relationships we have built with our suppliers combined with our team **technical and commercial skills**, we are able to offer not only **high quality products with competitive prices** but also consulting and support in choosing the right solutions following the customer's specific needs and requirements.

The products we offer are used mainly in areas related to the high pressure water cleaning and jetting. Many Emilian manufacturing companies work in this field, but only some of them have been keeping their authentic identity during the years: **MADE-IN-ITALY engineering and production.**

These companies represent Emiltec's partners today.

We are aware we can count on high quality products and excellent service, readiness in exchanging information between customers and suppliers and, not least, our warehouse location: in the centre of a highly industrial area where every kind of product can be obtained, these are the reasons why we are looking confidently ahead.

Future is about to bring important challenges for the whole Italian industrial system and we feel proud of being part of it.
